

Reliable setup with complex AC architectures

EVlink™ Commissioning Service

Solutions at a glance

EVlink Commissioning Service is targeted for EVlink infrastructure from 15 AC charging stations connected to EcoStruxure™ EV Charging Expert.

This service ensures that the solution is commissioned according to Schneider Electric™ specifications.

Schneider Electric will:

- Commission the eMobility infrastructure
- Provide Customer report to ensure traceability for the parameters changes with backup
- Conduct tests of all charging stations

Benefits

- Minimize start-up time
- Learn with experts how to commission properly
- Cut lifecycle costs by preventing equipment failure and increasing reliability
- Get improved end-user satisfaction
